SUMMARY

I am a Trainee Front End Developer looking for a full-time position. My goal as a developer is to improve my knowledge and programming skills. I learned HTML5, CSS3 and JavaScript. I continue my studies and in the near future I will study React, Redax, NodeJS, MongoDB on the course. After studying, I want to work as an Full Stack Developer. I will learn, develop and work to become a good specialist in your company.

PROJECTS EXPERIENCE

ICE-CREAM [HTML5, CSS, SASS, JavaScript, Parcel, GitHub]
https://github.com/oxica/special-team
A team-project related to the creation of a landing page for the practice of learned technologies in teamwork. On the project, I performed the tasks of a team lead. My main responsibilities included developing the basic structure of the project, helping other developers in our team, and presenting the project.

WEB-STUDIO [HTML5, CSS, SASS, GitHub]
https://github.com/oxica/-goit-markup-hw-08
A responsive web-page layout, which applies all best practices taken from BEM methodology.

FILMOTEKA [JavaScript, Parcel, HTML5, CSS, SASS, GitHub]
https://github.com/oxica/project-filmoteka
On the team project, I performed the tasks of a team lead. My main responsibilities included developing the basic structure of the project.
